## **Leadership Engagement**

Recognition practices don't come naturally to most people. Yet management support and participation is critical to Recognition program success. Leadership Engagement is a web-based, self-paced learning tool. The program makes the business case for Recognition, and provides managers with the skills and understanding they need to help bring Recognition to life.

Leadership Engagement is built around the key Recognition success factors identified through extensive research conducted by Dr Bob Nelson. The program provides a convenient, effective way for time-pressed managers to integrate Recognition skills and behaviours into their work habits.
