### **AwardsOnline**

AwardsOnline is an online software application that lets you implement your own incentive programs with fulfilment support from Achievement Awards Group. The system includes:

### **Communications Manager**

Functionality to handle all aspects of administrator-participant interaction, including regular automated email despatches.

### **Librarian**

An online knowledge base offering performance improvement research to help you make more informed incentive program design decisions.

### **Incentive Program Manager**

Manages participant registration, issues points; applies changes to the automated emails when necessary and most importantly, provides reports on point issues vs. budget vs. participant activity.

### **Online Award Catalogue**

The Online Award Catalogue offers thousands of items participants can 'purchase' with award points.

### **Fulfilment**

**Merchandise is delivered door-to-door and supported by a full supply chain of fulfilment services.**
