

Research & Analysis

Methodical research uncovers the source of weak performance. Expert analysis informs the solution. Objective, considered, cost-effective.

Our systematic research methodology looks beyond the obvious, to identify the root cause of performance problems. It's comprehensive nature interrogates performance weaknesses to differentiate between symptom and cause, ensuring correct solution and effective resource allocation.

How it works

<INSERT HEADING HERE>

With a clear understanding of your objectives, we conduct an in-depth view of your organisation through one-on-one interviews, focus groups, surveys and secondary research.

Expert analysis of the data draws on deep knowledge and experience. Solutions are targeted to specific objectives.

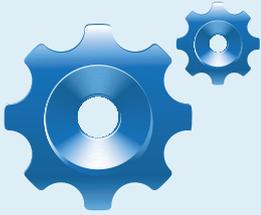

Independent, objective research and analysis ensures unbiased results.

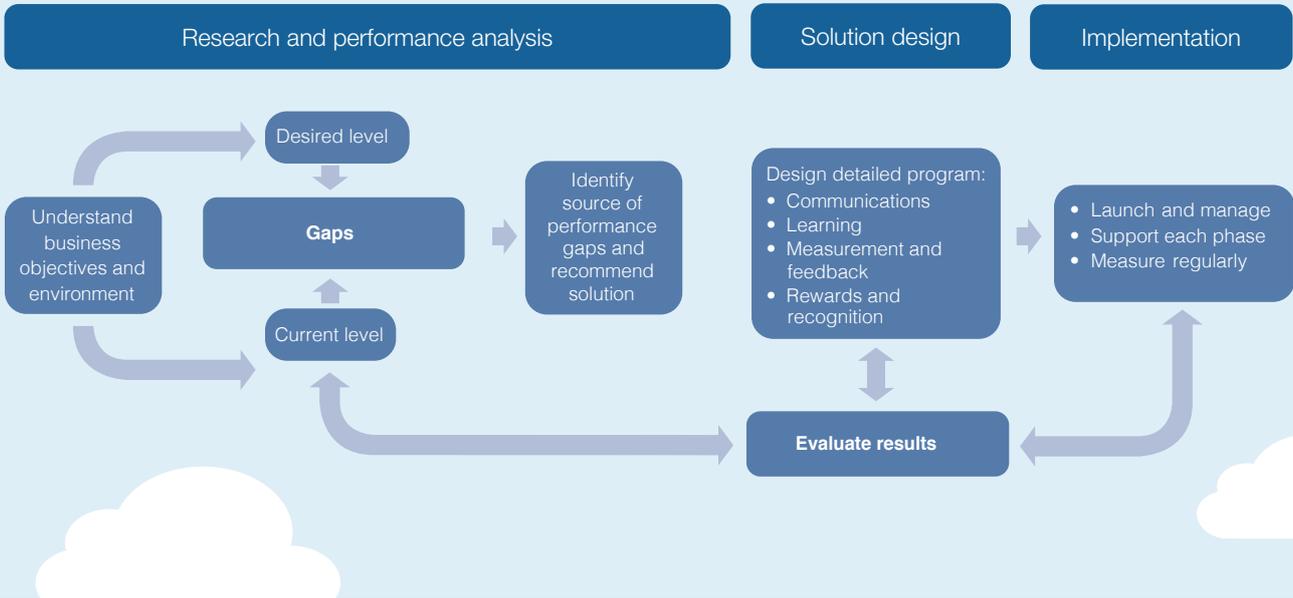

Our methods are grounded in performance improvement theory and based on proven research models.

The result is efficient, effective performance improvement.

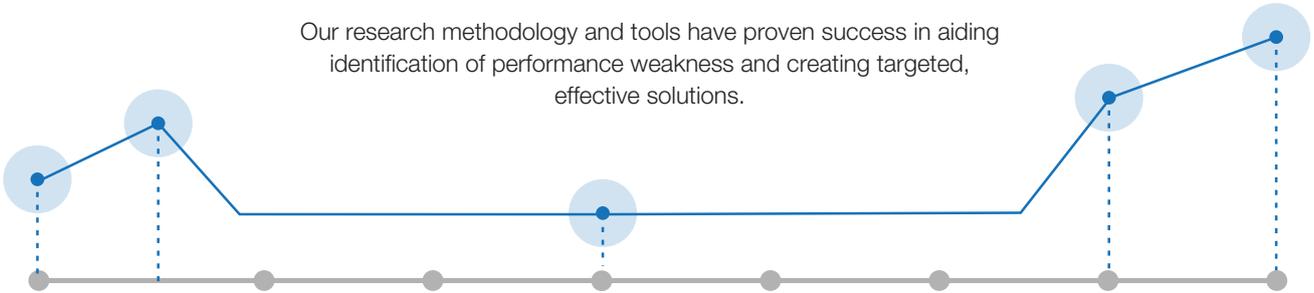

Systematic methodology grounded in performance improvement principles

Why Achievement Awards Group

Our research methodology and tools have proven success in aiding identification of performance weakness and creating targeted, effective solutions.

Food for thought

"If you don't ask the right questions, you don't get the right answers. A question asked in the right way often points to its own answer. Asking questions is the ABC of diagnosis. Only the inquiring mind solves problems."

Edward Hodnett
