

virtualcard

The **virtualcard** enables secure e-commerce shopping around the globe and offers a world of ways to reward your employees, channel and customers.

The **virtualcard** works like a temporary credit card for secure online shopping at global and local e-commerce sites. It's linked directly to your points bank account, making payment seamless and secure. And for added peace of mind, the card expires within days of purchase. Add to these security features the convenience of online shopping and the **virtualcard** puts you one click away from a world of reward options.

How the **virtualcard** works for you

The **virtualcard** is secure, convenient and valid at any MasterCard® e-commerce merchant.
